## **DataMatrix Encoder SDK ActiveX Crack+ Full Version PC/Windows**

### **What's New in the DataMatrix Encoder SDK ActiveX?**

DataMatrix EncodeDecode SDK is a encoder and decoder using DataMatrix technology. It can be used to create DataMatrix barcode images from raw data like text,number,byte, etc. It is most suitable for data communication and business application. The DataMatrix encoder is an ActiveX component developed with Visual C++ 6.0. It has some advantages including:

- Support multi-language encoding.
- Support all DataMatrix symbology, including: DataMatrix, DataMatrix-2, DataMatrix-3, DataMatrix-4, DataMatrix-5, DataMatrix-6, DataMatrix-7, DataMatrix-8, DataMatrix-9.
- Use the compact symbology (DataMatrix-3, DataMatrix-4, DataMatrix-5, DataMatrix-6, DataMatrix-7,

---

DataMatrix-8, DataMatrix-9), and use the big data-structure of the symbology for data content. · Use the Big Data structure to reduce the memory footprint and reduce the processing time, and use the small data structure to create small, readable barcode image. · Create any type of barcode with any DataMatrix symbology. · Support all devices, such as PC, Microsoft Tablet, HP, IBM, Samsung etc. · Support most of the windows operating system such as Windows XP, Windows Vista, Windows 7, Windows 8, Windows 10, Macintosh. · Create DataMatrix barcode images with different resolution and file format, and optimize output image according to the device used. · Provide rich user interface for creating DataMatrix barcode image and decoding barcode image, and automatically save the data type and other information for each symbol on the page. · Support design file. · Support multiple barcode symbologies and support multiple encoding modes. · Support Reed-Solomon Error Correction. · Support all DataMatrix
